## LEGISLATIVE UPDATE

### **Governor Christie Delivers His First State of the State Message**

Yesterday, Governor Chris Christie delivered his first State of the State message, outlining his three top priorities for the year that focus on: fiscal responsibility, public employee pension and benefit reform and education reform. His messages on fiscal responsibility, cutting spending and making much needed changes to public employee benefits are ones that our Chamber have supported for many years. And, the Governor's message acknowledged that these issues are tied to making New Jersey a place in which people want to live and work.

The Governor began his message saying that the state of the state is improving and that New Jersey is making a comeback, however, there is still work to be done.

Looking back on his first year in office, the Governor outlined accomplishments, including reducing spending by 9%, balancing the state budget, lower state taxes, an unemployment rate that is dropping and is now below the national average, and the fact that companies are beginning to take a second look at New Jersey. He also pointed to progress made in pension and benefits reforms, as well as education reforms. He then stated that bigger changes need to be made, especially on challenges that have been ignored. He pledged to continue to get State's fiscal house in order and that the Fiscal Year 2012 budget will be balanced without raising taxes. The Governor indicated that in order for New Jersey to become a home for growth, taxes on businesses and individuals need to be reformed and rolled back. He will be

proposing an initial installment of such a tax reform package.

The Governor also addressed the pension and benefit system, stating it is one of the reasons residents pay among the highest property taxes. He indicated that he will seek raising the retirement age, curbing COLAs in times of low or no inflation, and requiring employees to make a modest contribution toward their retirement.

On education reform, the Governor called for: the expansion of charter schools, the need to pass the Opportunity Scholarship Act now, reforming or closing failing schools, reducing out-of-classroom costs to focus dollars on teachers and students, allowing layoffs to be based on merit versus longevity, rewarding high quality teachers, giving schools more power to remove underperforming teachers, and eliminating tenure. ### **Governor Signs Bill Expanding BRRAG Program**

On January 7, the Governor signed S-2370 (Kyrillos/Madden), which expands the Business Retention & Relocation Assistance Grant Program (BRRAG) by increasing the tax incentives and easing eligibility restrictions so that more businesses can qualify for the incentives. The Chamber supported this legislation in a desk letter and in testimony before the Assembly Budget Committee. [Click here](#) to view testimony and desk letter.

### **Pro-Business Bills On Governor's Desk**

A number of pro-business bills, many of which were supported by the Chamber, have passed both houses of the legislature and await the Governor's

signature. These bills: extend eligibility of investors in business or housing projects for tax credits under the Urban Transit Hub Tax Credit Act; consolidate certain business-related categories of gross income and provides a 20 year carry forward of certain net losses; create an "Angel Investor Tax Credit Act"; and establish a closing fund, up to \$50 million per year, to provide financial resources for certain economic development projects.

Additionally, the Assembly passed five bills aimed at streamlining the regulatory process, including:

[A-2720 {Burzichelli/Rumano}/S-2014 {Orscho/O'Toole}](#), which establishes new procedures in "Administrative Procedure Act" to allow substantial changes to agency rulemaking upon adoption.

[A-2721 {Burzichelli/Quijano/Caputo}/S-2013 {Orscho/O'Toole}](#), which changes the expiration of state agency rules from five years to ten years and establishes a new procedure for readopting rules without substantive changes.

[A-2849 {Burzichelli/Quijano/Riley/DeAngelo}/S-2441 {Weinberg/Sarlo}](#), which requires the Board of Public Utilities to issue every order in written form and post them on the internet.

[A-2853 {Burzichelli/Milam}/S-6 {Sarlo/Kyrillos}](#): Streamlines process for State and local agency business permits related to economic development projects.

**A-2922 (Burzichelli/Coughlin)/S-2607 (Oroho/VanDrew)** which establishes new procedures for resolving conflicts or inconsistencies in adopted rules and regulations.

**Business Action Center Opens in Trenton**

Under the leadership of Lieutenant Kim Guadagno and Acting Executive Director Linda Kellner, businesses in New Jersey will now have a more direct route when interacting with State government at the new Business Action Center (BAC) located at 225 West State Street in Trenton.

The BAC is modeled like a "one-stop" shop with a focus on customer service and will play a vital role in attracting, retaining and growing businesses in New Jersey. In addition, the Business Action Center will offer professional and coordinated assistance to businesses in the resolutions of permit applications, licenses, certificates and other business related approvals.

The number for the Business Action Center is 866-534-7789.

Key Features of the Business Action Center:

**Financial and Incentive Programs:** The BAC walks business through the State's incentive and financing programs available to businesses.

**Permitting and Regulatory Assistance:** The BAC provides professional, coordinated services to help new and existing businesses navigate New Jersey's regulatory process. By actively working with State agencies and departments, challenges are identified quickly and solutions are formulated.

**Growing New Jersey's International Competitiveness:** The BAC offers guidance to companies looking to expand their business

globally through trade consulting services and inward foreign direct investment services.

**Site Selection Services:** The BAC maintains a complete real estate database of New Jersey's commercial properties and can provide a real estate report with location options.

**State Planning for Future Growth:** Within the BAC is the new Office for Planning Advocacy which serves as the focal point for coordinating and progressing New Jersey's planning strategies. Previously, the Office of Smart Growth, the Office of Planning Advocacy operates to stimulate new opportunities and increase the on-stop shopping experience for business.

For more information, please visit [www.NewJerseyBusiness.gov](http://www.NewJerseyBusiness.gov).

**State Launches Business Portal Website**

The State of New Jersey announced that it has officially launched the Business Portal Website, a newly redesigned online on-stop shop for all business activities in New Jersey. The site can be found at <http://www.nj.gov/njbusiness/>. It is also accessible on the [State of New Jersey](http://www.nj.gov) homepage by clicking on the "Business" tab. While on this site, businesses can find out more information on the Christie Administration's newly created Business Action Center, information on starting a new business in New Jersey, registering a business, State offered financing and incentive options and much more. This important tool is available to companies of all sizes. We encourage our members to visit the site and become acquainted with what New Jersey has to offer the business community.

**Governor Christie Announces CEO of Choose New Jersey**

On December 16, Governor Christie announced Tracey McDaniel as the new CEO of *Choose New Jersey*, a non-profit corporation designed to market, promote and facilitate business attraction, expansion and retention in the State.

A native Texan, McDaniel headed the Greater Houston Partnership since 2006 as its Executive Vice President & COO –the fifth largest business alliance in the nation, representing ten counties and nearly 2,100 businesses in the greater Houston area.

*Choose New Jersey* is chaired by Dennis M. Bone, President of Verizon New Jersey, and is funded by 15 private companies who pledged to help spread the word that the business climate in New Jersey has changed. [Click here to register for our January 21 Wells Fargo/Wachovia Good Morning South Jersey featuring Dennis Bone.](#)

Reporting directly to Lieutenant Governor Guadagno, the team of business representatives will bring a 'customer service' approach across government agencies, on both the state and local levels of government, for businesses looking to remain, expand or locate in New Jersey. *Choose New Jersey* will also market incentive programs and provide policy recommendations to make New Jersey a home for growth.

The Chamber believes *Choose New Jersey* is a significant signal to the State's business community that our leaders are committed to promoting growth within the private sector by making our State more business friendly and responsive to the needs of business.

**NJDOL Adopts Rule Proposed by CCSNJ**

The New Jersey Department of Labor & Workforce Development has adopted a rule initiated by the Chamber regarding time clock "rounding" practices. The adopted rule was effective on December 20, 2010 and will make New Jersey's practices on time clock "rounding" consistent with language contained in the federal Fair Labor Standards Act. By adopting the federal standards, companies will no longer have to

## CCSNJ FEATURED PARTNER: MARSH

### The Bargains Are Out There—And So Are Questions

With car prices expected to remain low and incentives quite prevalent, the adage “It’s never been a better time to buy” seems truer than ever. But although the credit crunch has eased somewhat, experts believe you can continue to expect tighter scrutiny on your financing. This means to qualify for the best rates, you should raise your credit score above 600, and expect to put down 20 percent cash or trade. The national average is 7.3 percent, but that will vary with your location.

Insurance rates can add to the cost of buying a car. The easiest way to comparison-shop your many choices is to consult the new Marsh Auto Choice Plan<sup>†</sup>, administered by Marsh Voluntary Benefits. This plan enables you to compare personalized hard and fast quotes from three A-rated insurance companies and find your best rate—and switch your coverage with a simple toll-free phone call. At the very least, you’ll save the hours and hours determining whether you are getting the best value for your insurance dollar.

To see for yourself how much money you could save on your auto insurance, visit [www.ChamberSNJBenefits.com](http://www.ChamberSNJBenefits.com) or call an American-based representative at Marsh’s J.D.
