

DWR®

DECK & WOOD Cleaner/Restorer

DESCRIPTION

DWR Cleaner is a ready to use, biodegradable product for cleaning and restoring exterior, natural wood surfaces; including cedar, redwood, pressure treated, pine and oak fencing, decks and siding. It is an environmentally safe product that provides excellent results economically. Does not contain any bleach, chlorinated solvents, acids or any ozone depleting ingredients.

USES

Use Cleaner/Restorer in place of ineffective bleach products or hazardous solvent based compounds. It is a proven cleaner/restorer for gray and discolored wood caused by moisture, mold, mildew, tannin, U.V damage, dirt, natural weathering and aging.

PREPARATION & APPLICATION

Cleaner/Restorer can be applied by brush, roller or pump-style sprayer. Prior to application, remove all furniture, metal fixtures and children's toys from the area. Thoroughly wet down plants and vegetation before and after application to avoid damage. Do not apply to hot surfaces or in direct sunlight. Apply to a cool, dry surface. Apply cleaner/restorer liberally to the surface with recommended applicator. On vertical surfaces, start from the bottom. Wait approximately 5 minutes, agitate surface and rinse or power wash. If cleaner dries, spray with water or re-apply cleaner. Re-apply if necessary to achieve desired results.

Use Organic Brightener and Neutralizer, to brighten wood that may darken more than expected, especially cedar and redwood and to neutralize any remaining cleaner. Wait until surface is thoroughly dry before applying stain or clear protectant. Lightly sanding surface will remove residual wood fibers and help coating penetration and adhesion.

PROPERTIES

Coverage	150-200 sq. ft./gal.
Appearance	Blue liquid
Odor	Mild
Flash Point	None
pH	14
lb./gallon	8.75 - 9.00

PACKAGED

Cleaner/Restorer is available in gallons (4/case), 5 gallon pails and a professional strength concentrate.

SAFETY AND HANDLING

DECK & WOOD Cleaner/Restorer

CLEAN UP

Clean tools and equipment immediately using soap and water.

DISPOSAL

Use completely or dispose of properly. Local requirements vary. Consult your local sanitation department or state designated environmental agency.

SAFETY

DANGER: Corrosive liquid. Contains sodium hydroxide and sodium metasilicate. Use only with adequate ventilation. Do not breathe spray mist. Ensure fresh air entry during application. Avoid contact with eyes and contact with skin. Avoid exposure to mist by wearing a NIOSH approved respirator during application and clean up. Follow respirator manufacturer's directions for respirator use. Prevent mist or fumes from entering ventilation systems of occupied buildings. Close container after each use. Wash thoroughly after handling.

FIRST AID: In case of eye contact, immediately flush with water for 15 minutes, while lifting upper and lower lids. Get immediate medical attention.
SKIN: Immediately wash affected area with soap and water until all traces of chemical residue are gone. Get medical attention. If you experience difficulty breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical attention immediately.

IN CASE OF SPILL: Absorb with inert material and dispose of properly. **KEEP OUT OF REACH OF CHILDRE.** Refer to Material Safety Data Sheet available for full safety and handling information.

WARRANTY

Information and recommendations for this product are based on research performed by Chemique, Inc. and the research of others, and are believed to be accurate. However, no guarantee of the accuracy is made because we cannot cover every possible application of our products, or can we anticipate every variable that may be encountered regarding types masonry surfaces, job conditions, degradation, weathering, age and methods used. The purchaser and end user must make their own tests to determine the suitability of such products for each particular purpose.

Chemique, Inc. warrants this product to be free from defects. Chemique makes no other warranties with respect to this product, express or implied, including without limitation the implied warranties of merchantability or fitness for particular purpose. Chemique, Inc's liability shall be strictly limited to supplying sufficient product to re-clean the specific areas which defective product was applied. Acceptance and use of this product absolves Chemique, Inc. from any and all liability whatsoever, including liability for incidental, consequential or resultant damages whether due to breach of warranty, negligence or strict liability. This warranty may not be altered, modified or extended by representatives of Chemique, Inc., its distributors or dealers.
